Logomark

KARLA LANDSBERG

STUDENT NUMBER: 55813364

WORKING TOWARDS

- A true understanding of my modules
- Understanding programming fundamentals to their core
- Creativity in more than one field
- Communication skills
- Improvement and progress over perfection

CHOSEN ROLE:

- Web Developer

DISTANCE GROUP

WHAT I CARE ABOUT

- Helping others
- Wildlife and nature
- Travelling
- Learning more about other people
- Dance

WHY MY LOGOMARK LOOKS THE WAY IT DOES

The lines represent rhythm and movement, an ode to my career as professional ballerina

The dragonfly represents the growth and agility I need for both Information Technology and dance

Reflection

- Designing the Infographic was harder than I anticipated. It challenged me to think critically about who I am and what I care about.

- I struggled to decide how my logo should look and what elements I wanted to include. I had multiple rough drafts of logos and none felt right, even the logo I have know does not quite feel like me.

- I removed some illustrations from my design, because they did not fit in with my logo theme.

- I think this design shows a bit about my perfectionism and my personality
